## Unique opportunity to network & do business in existing DECOM sectors & the chance to diversify into new markets.

We have a number of Exhibition stand options available to suit most budgets, including 4 x 3, 3 x 2 and 2 x 1 shell scheme spaces, as well as open areas for organisations who would like to exhibit utilising a bespoke exhibition stand.

Exhibition packages are all inclusive of electrics, lighting, furniture and internet access for your convenience, so all you need to focus on is winning new business!

The supply chain exhibition provides a unique opportunity to network and do business in existing markets but also the chance to diversify into new areas, where operators and organisations are in need of new skills and innovations, to solve some of the world's most complex engineering challenges. Much of the expertise required to decommission an asset, be it a nuclear plant or oil & gas platform, are remarkably similar.

The exhibition will be open across the two days of the event, providing the perfect opportunity for exhibitors to showcase products and services to all DECOM sectors.
